About Appointments

Many people like to come to their appointment at the same time each week. In order to make sure your time slot is always available, please make two month's worth of appointments at a time.

When one month of appointments is coming to a close, please make sure to reserve your time slot for the following two months to ensure continuous care. I suggest that you mark it on your calendar as a reminder. This is your responsibility.

You are expected to pay at the beginning of your appointment.
